## How the nutraMetrix Isotonix Daily Essentials Kit benefits you:\*

Enjoying good health and lifelong vitality isn't the result of an overnight transformation — it happens one day at a time. It's also true — now more than ever — that each day can bring new challenges and stresses to both body and mind. By making the right nutritional choices every day, we set in motion benefits which add up over the course of weeks, months and years. For all of these reasons, the nutraMetrix Isotonix Daily Essentials Kit is made for every adult.

The nutraMetrix Isotonix Daily Essentials Kit provides the foundational support of nutraMetrix Isotonix Multivitamin without Iron that helps maintain normal immune functions while supplementing for deficiencies common in the daily American diet. To help facilitate physical and mental energy, nutraMetrix Isotonix Activated B-Complex supplies this vital nutrient group in its most biologically available, easily absorbed form. nutraMetrix Isotonix Calcium Complete provides the well-known support for both bone health and healthy body weight, along with providing the important promotion of normal hormonal production and activity. Finally, nutraMetrix Isotonix OPC-3® helps maintain healthy blood glucose and cardiovascular health, while also fighting off free radicals.

Many of us have a tendency to put things off when it comes to our nutrition. The fact is, however, that each day is an opportunity to move toward a healthier lifestyle, one step at a time. Starting today means feeling better tomorrow. To prepare for both the day ahead and the days to come, take advantage of the nutraMetrix Isotonix Daily Essentials Kit.
